

COVID-19

SCREENING PROCESS

STEP 1.

You feel bad (fever, cough). Could it be COVID-19?

STEP 2.

Call your primary care physician or make a virtual visit appointment (visit conehealth.com/appointments).

STEP 3.

If a physician determines that COVID-19 testing is needed, you will be sent to a specimen collection site. **No one will be tested without the order of a physician.**

STEP 4.

Specimen sent to lab for testing. You go home and self-quarantine.

STEP 5.

We call you in 24-72 hours. If COVID-19 positive, you will receive appropriate care. If not, return to normal activities.
